We offer exclusive insurance options for the transportation of your precious materials. The insurance coverage provides you with additional peace of mind, extra protection, and a financial safety net during your IVF journey.

WHY CHOOSE CRYOPORT SYSTEMS

Science

Cryoport Systems' scientifically enhanced technology and equipment provide secure and reliable shipping worldwide.

Logistics

Our dedicated customer service team proactively monitors each shipment through our superior condition monitoring system, allowing us to intervene if needed.

Certainty

With over two decades of sensitive material transport experience, Cryoport Systems has facilitated more than 750,000 shipments around the world.

Global Footprint

We proudly serve over 150 countries with 50+ facilities around the world. Plus, 90% of U.S. fertility clinics have worked with Cryoport Systems in the past.

Veri-Clean® - Validated Cleaning

Cryoport Systems developed the industry's only validated cleaning process for shippers and stainless-steel accessories to reduce external contaminants by 99.9999% after every use.

End-to-End Solutions

Cryoport Systems will seamlessly coordinate material transport from the original clinic to the destination clinic. Our team verifies all contact information, addresses, and shipping details before arranging pick-up and shipping dates that align with procedure appointments and lab staff availability.

When it can't be replaced,
Trust Cryoport Systems.
