Commodity Classification:

- Exempt Human Specimen:** Specimen packages marked as “Exempt human specimen” according to the ICAO. Technical Instructions are not regulated under the Hazardous Materials Regulations (HMR; 49 CFR Parts 171-180). In the United States, the mark “Exempt Human Specimen” is an indication that there is no infectious substance in the package. Packages bearing these marks may be accepted by an air carrier that has made a business decision not to accept hazardous materials.
- Exempt Animal Specimen:** Specimen packages marked as “Exempt animal specimen” according to the ICAO. Technical Instructions are not regulated under the Hazardous Materials Regulations (HMR; 49 CFR Parts 171-180). In the United States, the mark “Exempt Animal Specimen” is an indication that there is no infectious substance in the package. Packages bearing these marks may be accepted by an air carrier that has made a business decision not to accept hazardous materials.
- Not Subject to Dangerous Good Regulations:** Substances which do not contain infectious substances or substances which are unlikely to cause disease in humans or animals and are not of human or animal origin.

Cryoport Systems does NOT ship Category A, UN3245, and UN3373 commodities at this time.
