Container Volume	Quantity	Unit Value
Declared Value	Currency Code (On Declared Value)	

International Shipments:

Country of Origin	Harmonized Code (Schedule B No.)
Reason for Shipment	If other, please specify:

Commodity Information:

- 1. Exempt Human Specimen:** Specimen packages marked as “Exempt human specimen” according to the ICAO Technical Instructions are not regulated under the Hazardous Materials Regulations (HMR; 49 CFR Parts 171-180). In the United States, the mark “Exempt Human Specimen” is an indication that there is no infectious substance in the package. Packages bearing these marks may be accepted by an air carrier that has made a business decision not to accept hazardous materials.
- 2. Exempt Animal Specimen:** Specimen packages marked as “Exempt animal specimen” according to the ICAO Technical Instructions are not regulated under the Hazardous Materials Regulations (HMR; 49 CFR Parts 171-180). In the United States, the mark “Exempt Animal Specimen” is an indication that there is no infectious substance in the package. Packages bearing these marks may be accepted by an air carrier that has made a business decision not to accept hazardous materials.
- 3. Not Subject to Dangerous Good Regulations:** Substances which do not contain infectious substances or substances which are unlikely to cause disease in humans or animals and are not of human or animal origin.
- 4. Genetically Modified Organism (GMO) (UN3245):** An organism whose genetic characteristics have been altered using the techniques of genetic engineering.
- 5. Biological Substance, Category B (UN3373):** An infectious substance not in a form generally capable of causing permanent disability or life-threatening or fatal disease in otherwise healthy humans or animals when exposure to it occurs. This includes Category B infectious substances transported for diagnostic or investigational purposes.

NOTE: Cryoport Systems does NOT ship Category A commodities at this time.
